

**Pre-work**

It's important to get into the headspace of learning prior to the workshop. It won't take long but will be worth it!

**Please watch this video** before the workshop as we discuss the importance of purpose and vision when planning Agile projects:

[https://www.ted.com/talks/simon\\_sinek\\_how\\_great\\_leaders\\_inspire\\_action](https://www.ted.com/talks/simon_sinek_how_great_leaders_inspire_action)

These videos will be played in the training but feel free to watch them ahead of time as well:

- Above and Below the line behaviour: <https://youtu.be/fLqzYDZAqCI>
- Vinh Giang on perspective: <https://www.youtube.com/watch?v=oHDaxSuAUtE>

**Examples of workplace projects**

Bring examples of your current projects, as we will refer to them as much as possible, as well as use them as live examples to bring the content to life for you.

**Take some time to set a clear outcome**

What are you looking at getting out of this workshop? What would make the masterclass a success for you?

---

**What questions do you have?**

What questions do you have about Agile Project Management or Agile in general that you would like answered?
